THINGSOFMETALANDWOOD.COM.AU

Introduction

My name is Paolo Baretta and my company Things of Metal and Wood manufacture Portable, light weight Goal Posts. I am a family business based on the Sunshine Coast and have been involved with football and as a player, coach and spectator for over 30yrs.

Throughout my involvement with football I have noticed and personally experienced the inconvenience of moving heavy goal posts to suit training drills or field reconfigurations. This lead me to develop a product that helps players and coaches at all levels of sport to perform to the best of their ability. Time should be spent on playing rather than moving heavy and potentially dangerous steel or timber goal posts.

The portable goal posts manufactured by my company are made of 3mm wall thickness Aluminium tube powder coated, with heavy duty case wheels. Durable materials are used so the portable posts should remain virtually maintenance free for many years and well beyond the warranty period.

Benefits of the portable goal posts are:

- Lightweight and easy to move for training drills
- Relocatable allowing reconfiguration of fields to suit competitive matches and carnival days
- Backed by 5year manufacturer's warranty
- All parts are either powder coated aluminum or stainless steel fixings which give you piece of mind with a rust and corrosion free product.

A single portable goal is normally priced at \$3990.00 however as a one off special we will offer your football club/school a portable goal post at the reduced price of \$3212.00

Our company goal is to provide grass roots players and teams with innovative products that make them feel they can perform at the highest level. Our company believes in innovation in design, quality in production and exceptional customer service. Please find attached a quote for 1 goal, photos of a manufactured goal and a reference from one of our happy customers.

Thank you for taking the time to read this proposal and I look forward to talking with you in order to further discuss how my company can help support your club/school.

Yours in Football,

Paolo Baretta

To whom it may concern
Re: Paolo Baretta – Portable Goals

The Goalkeeping Australia Academy has been operating its Goalkeeping Academy on the Sunshine Coast for the past 10 years.

The Academy runs its weekly goalkeeper coaching with over 40 goalkeepers at the Maroochydore Football Club and we use several of Paolo's portable goals in daily training sessions.

We have found the goals to be of a high quality finish, sturdy and extremely portable and enabling our coaches and players to move the goals easily and quickly during the training session.

I have seen many portable goals in Australia and overseas in my role as an FFA National Goalkeeping coach and I can highly recommend these goals.

Re: Personal Reference for Paul Baretta

TO WHOM IT MAY CONCERN,

It is my pleasure to act as a personal referee for Paul Baretta. I have known Paul for more than 10 years through my involvement in the administration of Maroochydore Football Club.

Paul has distinguished himself through his commitment to both the club and the teams within the club that he has been a member of. Recently he accepted the contract to design and build three new sets of goals for the club. This was an undertaking of considerable magnitude. Throughout this process Paul acted professionally and with complete integrity. His workmanship was of a very high standard and his attention to the small items of detail was exceptional. The completed product was of a sufficiently high standard that we have had significant interest from other clubs in relation to replicating the design and construction for their own needs. The completed product was superior to any commercially available goal posts available in Australia, a commendable effort on Paul's part.

I have no hesitation in recommending Paul for the quality of his workmanship, his professionalism, and the efficiency he displayed in completing the project for our club. I believe Paul would replicate these qualities in any further undertakings he was commissioned for, or within any place of employment. If you require any further information I am available through the above contact details.

Yours Sincerely

Nigel Riggs (B.ed, Dip. T)
